## **OUR PHILOSOPHY**

Our philosophy is highlighted by the following guidelines:

- ❖ To deliver the highest standards in our services by treating both customers and employees with utmost respect and trust.
- ❖ To maintain quality control at all levels of our operations for the utmost satisfaction of our customers.
- ❖ To create innovative solutions in our operations and utilize the available best advanced environment friendly technology to achieve our goal.
- ❖ To coordinate with all levels of staff, in order to pursue and manage any project, right from the conceptual stage to the implementation and completion of the project.
- ❖ AQUA SWIMMING POOLS objectives are committed to maintaining a balance between the interests of our Clients and our staff.
- ❖ Our Clients are our strategic partners with whom we work closely to seek solutions, which will add value to their own systems and installations. Their problems are our challenges, for which we are eager to offer innovative, cost-effective & reliable products and solutions, fully fit

for the purpose intended, without compromising on quality and the possibility of conservation of resources at any stage.

- ❖ we are committed to service before and after sales of our solutions. It is our endeavour to create a culture of Total Quality where continuous improvement of our people, our processes and choice of products become a way of life.
- ❖ We constantly update our system to utilize state of the art technology available to achieve our goals. Apart from training our staff on the emerging technologies, we also keep our customers updated on the latest technologies to improve their operating environment and reduce consumption of energy, which is the core part of our business.

## OUR CLIENTS

We have always placed the highest premium on **customer satisfaction** through the quality of work that is maintained at every stage of our work and service. we understand the needs and wishes of our clients. We understand that our clients need quality services which are cost and energy efficient. We also know that our clients often have very challenging schedules.

## OUR OBJECTIVES

We believe in creating a work place where our personal at all levels of the organization assume full responsibility for the quality of work productivity and creativity, an environment in which every worker feels involved and committed to the success of the business.

This continuous involvement of AQUA SWIMMING POOLS employees in the process of quality improvement is one of the major cornerstones of our success and the excellence in our professional services.

We have a skilled work force, which understands the Client's requirements. So, whether it is a new installation in a construction project or a minor maintenance service, we are committed to serve & satisfy our Clients.

The company's management facilitates the highest degree of teamwork and believes that this is the best way in achieving excellence in performance.

- Ensure deck area should always be non slip and water puddles must be avoided.
- Carry out water test for chlorine levels, PH Levels and maintains.

## WATER FEATURES

water features Provides peaceful, relaxing, holistic properties, soft and happy.

Landscaping with water features presents a wealth of design opportunities. A tranquil pond, a cascading waterfall, a meandering stream, or a bubbling.

Each of these possibilities offers aesthetic and environmental rewards. The concept of the garden as a peaceful, private sanctuary has inspired new interest in Water gardens, although the pleasing accents have been incorporated into home landscapes for centuries.

Our design approach is to incorporate the relaxing properties of water into a new or existing landscape so that it becomes a seamless component Of the landscape surround, complementing the desired lifestyle, the Water Garden Lifestyle. Over a decade of utilizing high quality components and natural materials, such as indigenous boulders, driftwood and Aquatic planting to recreate natural looking water.

A water garden provides a way to transform your property into an environmentally friendly landscape full of colour and biodiversity, imitating a natural setting.

## LANDSCAPING

Well designed landscapes complement the home's architecture and design, giving the home a story that can be read inside and out. By carrying your design style outdoors, you can turn a patio, deck or even a balcony into another room of the house.

With a reputation for the finest quality of service available, we provide construction, civil and MEP solutions for hardscape projects. Construction is executed with the application of modern equipment, technical expertise and use of the right resources. Covering the spectrum of landscape engineering.
